

May 4, 2020

To the Town Board;

I support the moratorium on commercial development and want to thank all the neighbors near and far for their concerns. We bought our home at 80 Landon Rd. 18 years ago. We moved to Brooktondale for the quiet nature of the community. This is a rural neighborhood. Any development will change the environment of where we live and the quality of life. I'm concerned about traffic safety, storm water run-off, lights, noise, and pollution from future development. Please consider all of the effects of commercial development on community members and property.

Thank you.

Celia & Steven Miller
