

## Town of Caroline, Places to See

Route 79--from Caroline/Dryden Town Line (or from Ithaca) to Tioga County Line (both directions); you will go through Besemer (green Besemer sign is where Caroline starts; there's not a sign that says Entering Town of Caroline), past some commercial development, Caroline School, a church, West Slaterville, Slateville Springs (Town Hall/firestation/gas station) and then continue through Caroline to County line.

Brooktondale/Valley Road through the Hamlet of Brooktondale: Post Office, Brookton's Market (perfect place for lunch), Community Center and garden walking trail), Old Fire Hall (part of Community Center)

Central Chapel Road from Brooktondale to Shindagin Hollow (maybe go over Burns Road U-shaped) and come down again onto Central Chapel. Good view from top of Burns Road of Boiceville

Then up Leonard Road, left on Bald Hill School Road, right on Grove School, your're back to Central Chapel.

Continue onto Old 76 Road to Caroline Center and then onto Speedsville

[Tour Six Mile Creek Website](#)

[Geohydrology article and small map](#)

[Sediment Drift Aquifer System](#)

1. Perkins Rd and the University Sand and Gravel operation plus Beaver Creek seasonal road.
2. Shindagin Hollow - all the roads that go through this.
3. Boiceville - drive in and around the cottages. On Boiceville Road
4. Slaterville Road, go out Harford Road to Town end....

Hammond Hill State Forest

Shindagin Hollow State Forest

County Forest near Level Green Road

Possible Future Caroline trail -- how to see this??

My suggestion for Nan and Rick would be to review the various maps in the final version of the Town's 2020 Comprehensive Plan and drive around seeing the important things noted in the maps. For example:

Map 1-3: New Housing and Housing Focus Areas; also Maps 1-1 Housing, Map 1-2 Housing Growth by Sector for background

Map 1-4: Residences and Commercial Properties

Map 3-1: Protected Open Space

Map 3-2: Streams

Map 3-3: Mapped Wetlands

Map 3-4 Aquifers and Watersheds

Map 3-5: Topography

Map 3-6: Soils

Map 3-7: Prime Farmland

Map 3-8 Land Use/Cover

Map 3-9: Unique Natural Areas

Map 3-10: Scenic Resources

I also suggest driving in "both directions" as possible to see how scenic vistas change with the direction you are heading (e.g., drive west on Rt 79 vs. drive east on Rt 79).

loop on 79 from Landon Road thru Lounsbery Road

Far eastern end of Route 79,, hamlet of Caroline, Flat Iron Road to Harford Road and back around Buffalo Road, from Route 79 to County line--
