Dear Members of the Review board,

FCC Licenses are not site specific; they are issued regionally and nationwide. Below are the explanation of the call letters and licenses.

Call letters are identifying code letters and numbers of the transmitting frequency.

The FCC is responsible for managing and licensing the electromagnetic spectrum for commercial users and for non-commercial users including: state, county and local governments. This includes public safety, commercial and non-commercial fixed and mobile wireless services, broadcast television and radio, satellite and other services. In licensing the spectrum, the Commission promotes efficient and reliable access to the spectrum for a variety of innovative uses as well as promotes public safety and emergency response.

More information can be found at <https://www.fcc.gov/>

Best Regards,

Mark Fuentes
