Subject: 180 day moratorium on development

Dear Caroline Town Board Members,

I strongly support the 180-day moratorium on commercial development so as to provide time for the revision of the Caroline Comprehensive Plan. COVID-19 has delayed most real estate transactions in the State, County and town and has made it difficult for many people to consider and comment on the Comprehensive plan in a timely fashion. There is no reason to approve projects that might not be consistent with the plan as eventually revised.
