

We the undersigned petition the Caroline Town Board to vote NO on the proposed Moratorium on Actions Subject to Site Plan and Subdivision Review for a Period of One Hundred and Eighty (180) Days for the following reasons:

The proposed Moratorium appears to be directed at one specific property that is a small business prospect. We feel that this is illegal and unwarranted. This action may cause the Town to be sued, which the Town can ill afford.

This small business can provide much needed goods and services close by for local Town's people, reducing our carbon foot print by not having to travel long distances for goods not offered by other local businesses. This also helps individual's economy.

This small business can also provide 10 to 15 new local jobs, property taxes of approximately \$20,000.00 per year, and more sales tax for the Town.

Another negative aspect to consider is the affect the proposed Moratorium may have on small home-based businesses in the area. It may well have an adverse effect on them.

Thus, we the undersigned request the Town Board reject this Moratorium.
