

Supervisor's Report February 14, 2018

Correspondence of Note:

- Annual library report from Acting Town Librarian, Gail Moran.
- Annual history room report from Town Historian, Barb Kone.
- email from Carol Kammen re.: "Celebration Grants" are open for winter 2018 round (due in March). Funding source if we wish to develop a historical recognition.
- Association of Town's letter about NYMEP, a municipal Community Choice Aggregation Program.
- FYI from Court Clerk: NYS Unified Court System has purchased rights and ownership of "The Courtroom Program" from SEI. This will eliminate our license fee.
- Letter from Unified Court System notifying us of \$30,000 award for Town Hall renovations (air-source heat pumps). Thanks to Justice Barr for stewarding our application.

Supervisor's Notes:

- Submitted grant application to NYSERDA's Clean Energy Communities Program for Brighten-up Caroline project to transition streetlights and homes to energy efficient LED lamps and bulbs. Response expected by May. Streetlights: LED streetlight conversion requires that the Town purchase streetlight infrastructure from NYSEG (arms, lamps, poles). We have received a purchase proposal from NYSEG and we are evaluating that in order to negotiate the price. LEDs in homes: we are planning a campaign for fall 2019 to distribute LED bulbs to Caroline homes and engage with residents about their home energy situation.
- Energy Independent Caroline contributed discussion and editorial feedback for development of Clean Energy Communities grant application. E.I.C. will be working with students in an Environmental Psychology class at Cornell this spring to gather feedback on energy opportunities and barriers from residents, and conduct pilot LED distributions.
- Five bids were received for Buffalo Road Creek Streambank Stabilization, Phase II. Bids were opened and recorded on February 8th. The project is scheduled for this spring (after May 15).
- Continuing work on revision of Subdivision and Site Plan Review Laws. Worked with Matt Johnston on Information Session presentation.
